

THE LIBRARY AUTOMATION BOOT CAMP 3

"Transform your Library"

Electronic Information Solutions, Inc.

In Partnership with

University of the East – Manila

Invites you to a **FREE** seminar on the latest trends for the Philippine Libraries.

Library Automation Next 2014

Library Management

- **Web-enabled systems.** Provide access from anywhere, on any device. Work from home, office or any computer. Integrate and connect.
- **Mobile apps.** Allow your patrons to use their smart phones and tablets to search your OPAC, reserve books, and see the books they borrowed, overdue, fines.
- **Enhanced Cataloging.** Support RDA, the latest cataloging standard. Support ISBN-13. Display book titles, table of contents and reviews, simplified copy cataloging.

Asset Management

- **Accountability.** Assign specific assets to specific individuals or department and reduce loss.
- **Valuation.** Know the value of assets from purchase price to current depreciated values.
- **Utilization.** Share assets across the organization with greater utilization.
- **Integration.** Import Information from any other system like Student Information System (SIS).

Security System

- **Circulation.** Easier book checkout - simpler security.
- **Reliability.** Faster inventory - keep books on the shelves.
- **Protection.** Provides library assets - the security they deserve.
