"Lexi-Comp ONLINE is very complete for the price. It is extremely easy to use. The hospital-wide subscription is great to have! Lexi-Comp provides the level of detail needed by most front line healthcare workers."

Daryl McNeal,
Pharmacy Manager, Dallas County Hospital

We are constantly improving Lexi-Comp ONLINE. Recent enhancements include:

Lexi-Drug Allergy Database – provides fully-referenced, detailed information on drug allergy issues such as cross-sensitivity, range of reaction, and patient management.

Lexi-Pregnancy & Lactation Database – provides fully-referenced, detailed information on the use of medications in pregnancy and lactation, including a full review of animal and human data.

King Guide – This trusted source for I.V. compatibility information has recently been enhanced with a user-friendly interface and new content covering an additional 10,000 medication pairs.

Lexi-Tox – A resource designed for hospital triage of poisonings and overdoses, including information on household products and treatment and stabilization information for patient management.

Martindale – Written by the Royal Pharmaceutical Society of Great Britain, this is the industry's most reliable and respected international drug reference with information from over 40 countries and regions.
