

National Technical Reports Library

Easy Access to and Perpetual Availability of Federally-Funded Technical Reports

The National Technical Reports Library fills a recognized void in access to a large collection of historical and current government technical reports that exists in many academic, public, government, and corporate libraries. Through NTRL, NTIS now provides a more comprehensive offering that delivers high-quality government technical content in all subject areas directly and seamlessly to the user's desktop.

Search 2 million + titles with links
to over 500,000 full-text (in PDF)

What you get:

A subscribing organization's students, faculty, staff and on-site library patrons may access the National Technical Reports Library for non-commercial use from Internet-connected organization-wide locations. Users at the subscribing organization may access NTRL from remote locations and branch or satellite facility through the organization's server. Annual subscription pricing is based on full-time equivalent (FTE) enrollment or employees.

The National Technical Information Service acquires, indexes, abstracts, and archives the largest collection of U.S. government-sponsored technical reports in existence. The NTRL offers access to these authenticated government technical reports to libraries and technical information users.

Subject coverage includes:

Administration & Management	Industrial & Mechanical Engineering
